TESTIMONIAL: FACILITATION DR RAMA NAIDU (6DegreesShift)

After attending the “Community Building” workshop hosted by the Citizens Leader Lab and facilitated by Dr Rama Naidu, I can wholeheartedly give this testimonial.

The advantage of attending numerous facilitation and group process workshops (as well as some wisdom gained over time) is that I can assess the facilitator's skills.

I can say that Dr Rama is amongst the top 3 facilitators if not the best I've experienced.

He has a unique gift to connect to the people and to touch the core elements in the meta-process of the group.

He clarifies the process in a simple, yet effective manner. Every person in the training group can apply the process and lessons learnt practically within their environment.

The process he applies is extremely powerful and creates a strong sense of agency within the stakeholder group. Mastering the skill and process is critical for any leader. I would strongly advise any leader to develop the skill and master the process in group and stakeholder engagement. It is transformative.

Regards
